After great conditions greeted the recording-breaking number of athletes (361) and countries (44) to kick-off the event, Tuesday's increase in swell provided the best waves yet and the elite of junior surfing did not disappoint.

The first Repechage Rounds ran on Tuesday across all four divisions, resulting in fierce competition to avoid elimination from the event.

Due to the double elimination format of the VISSLA ISA Juniors, all competitors get a second chance to advance in the event should they fall out of the Main Event through the Repechage Rounds. However, the road to the Grand Final through the Repechage is much longer than the road for those who stay in the Main Event.
